WATER IQ
POWERED BY LAND IQ

Coming Fall 2026/Winter 2027

Water IQ will provide accurate and comprehensive data and tools to address the entire needs of growers, GSA and District managers in **one** platform.

Access field-by-field water use, climatic, regulatory, and accounting results including:

Irrigation Parameters

- Monthly Evapotranspiration (ET) for regulatory compliance
- Daily ET for irrigation management
- Extracted and applied groundwater quantification

Precipitation

- Total Precipitation
- Effective Precipitation

Weather & Crop Production Information

- Chilling hours
- Growing degree days
- Min/Max daily temperature
- 10-day forecasted weather conditions

Crop Type

- Annual field boundary updates
- Annual reconciliation of fields to parcel ownership

Water Accounting and Invoicing

Well Registry

Fallowed Land Registry

Appeals Management

Grower & Manager Technical Support

Dedicated Technical Staff for Grower Outreach, Communications, and Education

CUSTOMIZATION

Understanding policies in every GSA are different, customization of modules is available.

SUPPORT

A single platform backed by Land IQ's team of agronomic, atmospheric, irrigation, and spatial scientists, as well as our web development team.

COST

Dependent on modules selected and will be on a per acre basis.
